HLR: High Level Requirement (https://artoftesting.com/)		
Functionality_ID	Functionality_Name	Functionality_Description
100	Website URL	while entering URL it opens the website
200	Logo button	While click on it it opens the home page
300	QA tools button	while click on it it opens page of showing different QA tools
301	Art of testing AD banner	while click on it it switches to another banner
302	Capit button	while click on it it opens page of capit tool
303	Online rest client button	while click on it it shows error of page
304	Test data generator button	while click on it it opens page of test data generator
305	Disposable email button	while click on it it opens page of disposable email page
306	JSON viewer button	while click on it it opens page of JSON viewer
307	Ecommerce button	while click on it it opens page of dummy Ecommerce
308	Sample webpage button	while click on it it opens page of sample webpage
309	URL encoder/decoder button	while click on it it opens page of URI encoder/decoder
310	Art of testing AD banner	while click on it it switches to another banner
400	Manual button	While click on it it opens popup list
401	what is manual testing button	While click on it it opens page of information about manual testing
402	Manual testing tutorial button	While click on it it opens page of tutorial about manual testing
403	Test scenario example button	While click on it it opens page of test scenario example
404	API testing tutorial button	While click on it it opens page of API testing tutorial
500	Automation button	While click on it it opens page of popup list
501	what is automation testing button	While click on it it opens page of info of automation testing
502	selennium tutorial button	While click on it it opens page of selenium tutorial
503	katalon studio tutorial button	While click on it it opens page of katalon studio tutorial
504	testNG tutorial button	While click on it it opens page of testNG tutorial
505	cucumber tutorial button	While click on it it opens page of cucumber tutorial
600	Perfomance button	While click on it it opens page of pop up list
601	Perfomance tutorial button	While click on it it opens page of perfomance tutorial
602	Jmeter button	While click on it it opens page of Jmeter tutorial
700	Java button	While click on it it opens page of java for tester
800	Interview button	While click on it it opens page of QA interview questions
900	Blog button	While click on it it opens page of blog for testing
1000	Search icon	While click on it it offers to search
1100	Manual testing button	While click on it it opens page of tutorial about manual testing
1200	Automation testing button	While click on it it opens page of info of automation testing
1300	Perfomance testing button	While click on it it opens page of perfomance tutorial
1400	Prepare for interview button	While click on it it opens page of QA interview questions
1500	software testing tutorial button	While click on it it opens page of tutorial about manual testing
1600	selenium tutorial button	While click on it it opens page of selenium tutorial
1700	java for testers button	while click on it it opens page of java for testers
1800	Jmeter tutorial button	While click on it it opens page of Jmeter tutorial
1900	Manual testing interview questions button	While click on it it opens page of manual testing QA interview questions
2000	selenium interview questions button	While click on it it opens page of selenium QA interview questions
2100	core java interview questions button	While click on it it opens page of core java QA interview questions
2200	SQL queries for interview button	While click on it it opens page of SQL queries QA interview questions

2300	Agile vs waterfall button	While click on it it opens page of info of agile vs waterfall
2400	waterfall button	While click on it it opens page of info about waterfall method
2500	regression testing button	While click on it it opens page of regression testing info
2600	automation testing button	While click on it it opens page of automation testing info
2700	smoke testing button	While click on it it opens page of info of smoke testing
2800	contact us button	While click on it it opens page of contact us details filling
2900	software testing training image	While click on it it opens page of software testing training details
3000	selenium training image	While click on it it opens page of selenium training details
3100	linkedIn icon	While click on it it opens page of linkedin sign in
3200	facebook icon	While click on it it opens page of facebook login
3300	youtube icon	While click on it it opens page of art of testing channel
3400	twitter icon	While click on it it opens page of twitter login
3500	pinterest icon	While click on it it opens art of testing page
3600	about us button	While click on it it opens page of about us
3700	contact us button	same as functional id 2800
3800	disclaimer button	While click on it it opens page of disclaimer
3900	terms of services button	While click on it it opens page of terms of services
4000	privacy policy button	While click on it it opens page of privacy policy
4100	DMCA protected icon	While click on it it opens page of DMCA website

Test Case ID	Functionality ID	Test Case Name	Test Case Description	Test Pre requisite	Test Data	Steps	Expected Result	Actual Result	Status	Remarks
1	100	Check Website URL	To test URL on chrome,edge and firefox	Browser, internet and website must be in working condition		1)Paste URL in listed browser and hit enter button	It should open the website	Work as per expected	PASS	
2	100	Check Website URL	To check URL on mobile device	Browser, internet and website must be in working condition		1)Paste URL in mobile device browser and hit search button	It should open the website	Work as per expected	PASS	
3	200	Check logo button	To check logo button works or not	Browser, internet and website must be in working condition		1)Paste URL in browser and hit search button 2) Click on logo button	It should open the home page	Work as per expected	PASS
